

HOME LEARNING PACK

Dear Parent/ Carer,

The staff at Hatton (Cruden) School have developed these home learning packs in order to support your child with their home learning, particularly if they are self-isolating.

Within the pack, you will find a suggested daily schedule as well as activities and weblinks which will support your child's learning in Maths, Literacy and many other curricular areas. An electronic copy of this pack will also be made available on Seesaw. If you aren't signed up to Seesaw, can you please contact the school and we can help set you up.

If you have any questions or would like some help with your child's home learning, our teachers will still be available to answer your questions through Seesaw.

We will also be sharing additional activity ideas through our school twitter account if you would like additional activities to try.

The staff at Hatton (Cruden) School would like to thank you for your ongoing support at this time.

Kind Regards

Miss Strachan

Suggested Daily Schedule

We came across this creative sample schedule that may help your family if you are currently self-isolating. Feel free to adapt to suit you and your family's needs.

Time	Suggested Activities	
Before 09:00	Wake up	Eat breakfast, make your bed, get dressed, put PJs in washing
09:00 – 10:00	Morning walk	Family walk or yoga if it's raining
10:00 – 11:00	Academic time	Use this time to learn something new. You may use the activities suggested in our learning packs
11:00 – 12:00	Creative time	Legos, magnetics, drawing, crafting, playing music, cook or bake etc
12:00	Lunch	
12:30	Chore time	A – wipe all kitchen tables & chairs B – wipe all door handles, light switches & desktops C – wipe both bathrooms, sinks & toilets
13:00 – 14:30	Quiet time	Reading, puzzles, nap
14:30 – 16:00	Academic time	Use this time to learn something new. You may use the activities suggested in our learning packs
16:00 – 17:00	P.E.	Bikes, walk the dog, play outside or use some of the activities in our learning pack.
17:00 – 18:00	Dinner	
18:00 – 20:00	Free TV time	
20:00 – 21:00	Preparation for bed	Shower, bedtime reading etc.
21:00	Bedtime

P.E.

Here are some fun PE activities that you can complete within your home. Also, there are lots of great activities on Go Noodle. You can register for free by following this link <https://www.gonoodle.com/>

P1/2

Physical Education Bingo

 Be active for at least 60mins every day!

B	I	N	G	O
 20 Jumping Jacks	 20 High Knees	 10 Toe Touches	 20 Butt Kicks	 20 Squats
 40seconds Plank	 20 Mountain Climbers	 20 High Jumps	 1 minute Dancing	 20seconds Gorilla Crawl
 15 Frog Jumps	 20 Elephant Stomps	<i>Free</i>	 15 Sit ups	 1 minute Meditation
 1 minute Jump rope	 20 seconds Crab Walk	 10 Starfish Jumps	 20 Lunges	 20 seconds Bear Crawl
 20 High Kicks	 30s each side Tree pose	 30 seconds V-sit Hold	 1 minute Wall Sit	 30seconds Cheetah run

Literacy - P1

Reading

Please use Oxford Owls for reading practise.

Google Oxford Owls and choose ebooks. Register for free and select **Ages 4-5**.

The first books are for pre-readers but scroll further down and find a book that your child can read comfortably with a little bit of help.

There are a large number of books to choose from. Please do a little reading practise EVERY day.

If your child is very confident with this age group you can move onto the next level.

Spelling

Teach Your Monster to Read is an app for learning your sounds. It is free at the moment. The children use it in class and really like it.

Select **First Steps** if you want a little more practice learning your sounds or **Fun with Words** if you are starting to write words.

I will send home the weekly spelling words through Seesaw. There are some ideas on the next page to help you learn your words.

Reading activities

Draw a picture of a **setting** from your book and write a sentence about it or ask an adult to scribe for you and copy their writing underneath.

Draw a picture of the **main event** in your book and write a sentence to tell us what is happening in the picture or ask an adult to scribe for you and copy their writing underneath.

Draw a picture of one of the **characters** in your book. Describe what the character looks like and his personality or ask an adult to scribe for you and copy their writing underneath.

Writing

Use the Simple Writing prompts in your pack to write a few sentences. Try to write the words yourself. An adult will help you with any difficult words.

Key words to practise writing over *the next few weeks* are:

can like went go going my am this here he she mum
dad want wanted and you the with some went have

Practise some every day.

Literacy - P2

Reading

Please use Oxford Owls for reading practise.
Google Oxford Owls and choose ebooks.
Register for free and select **Ages 5-6**

Look for a book that your child can read comfortably with a little bit of help. There are a large number of books to choose from. Please do a little reading practise EVERY day.

If your child is very confident with this age group you can move onto the next age range. **Age 6-7**

Reading activities

Draw a picture of a **setting** from your book and write a sentence about it.

Draw a picture of the **main event** in your book and write a sentence to tell us what is happening in the picture.

Draw a picture of one of the **characters** in your book. Describe what the character looks like and his personality.

Spelling

I will send home the weekly spelling words through Seesaw.

Download the Hundred Most Common Words List. Use the activities on the next page to help you learn your spelling words.

Teach Your Monster to Read is an app for learning your sounds. The children use it in class and really like it.
Choose **Fun with Words** or **Champion Reader**.

Writing

Write a **book review** of your favourite book at home. If you go onto the Twinkl website, which is free to parents at the moment, you can download a Book Review writing frame to use.

Write a diary for several days. Share it with us on Seesaw.

Things to remember: **Capital letters and full stops.**

Neat handwriting

Good presentation of your work.

	<i>Always ask how can I improve my writing before you start a new piece of work.</i>
--	--

Activities to help you learn your spelling words.

Spelling Word Memory: Create a double set of word cards and play a game of Spelling Word Memory by spreading out the cards face down and then taking turns flipping two cards at a time to find a pair!

Flip, Read, Letters, and Write: In just 4 steps, your child can practise reading, spelling, and writing his words. Have him flip over a word card, look at the word, say it out loud, say the letters, then flip it back over, and write the word on paper. •

Trace, Copy, Recall: Fold three columns on a piece of paper, and label one column 'trace', the next 'copy' and the last 'recall'. Write the word in the first column, and have your child trace the letters. Next have her copy the word by looking at what she's just written. Finally, have her fold (and hide) the first two columns and recall the spelling on her own as she writes the word independently.

Rainbow Writing: Write your spelling words out in lovely colours.

Spelling Word Race: Create two teams, with a player from each team taking the 'pen' at a time. Parent calls out a word from the list, and players race to write the word.

Spelling Puzzle: Make a home-made puzzle by writing each word in large letters on an index card and then having the child cut each card apart. The fun is in putting the puzzle back together!

Stairsteps: Write the words as if they are stairs, adding one letter at a time.

- o S
- o Sp
- o Spe
- o Spel
- o Spell

Maths Homework Grid (P1)

Learn 5 addition facts, play a maths game and choose one other thing to work on each day.

Addition facts

Choose 5 addition facts from the grid on the next page to practise each day.

Start by practising the grey and blue facts first.

Spend 5 minutes each day practising your number bonds to 10.

One more and one less

Get some raisins, grapes, cereal pieces. Place some on a plate. If the grown up with you says 'one more', add one more and say what number you have now. If they say 'one less', eat one and count how many you have left!

Ask a grown up to give you some toys. Count how many you have. Can you put out another group of toys so you have one more and then one less?

Build a tower with bricks. Can you build another tower with one more brick? Can you build another with one less brick?

Number bonds to 10

Link to a website for practising your number bonds.

<https://www.topmarks.co.uk/maths-games/hit-the-button>

<http://www.ictgames.com/saveTheWhale/>

Maths Games

Choose a maths game to play each day - Snakes and Ladders is a great game to help you learn your numbers! If you don't have this at home you can make your own version. There are a number of websites where you can print off a snakes and ladders board, including the Twinkl website which is free for parents to use at the moment.

Have a go at inventing your own maths game. Make sure you share it on Seesaw for us all to see!

Number to 20

Print off or make a set of cards with numbers from 0 to 20. Muddle them up and ask your child to put them in order, or put them in order and ask your child to close their eyes and take a number away. Can your child guess which number is missing?

Top Marks has a game for practising numbers to 20 and beyond.
<https://www.topmarks.co.uk/learning-to-count/helicopter-rescue>

When you are confident with numbers to 20, move onto numbers to 30 and beyond!

Subtraction

Make this game then write the sum!

e.g. start with ten cups and knock three down. How many have I left?

$$10 - 3 = 7$$

Try using different numbers of cups and as your child gets more confident add to the number of cups.

Fractions of amounts

Use some raisins, grapes, cereal pieces etc. to help you find $\frac{1}{2}$, $\frac{1}{4}$ and $\frac{1}{3}$ of a set of objects or you could use your teddies to help you.

If you are finding $\frac{1}{2}$ - share them between 2 of your teddies,
 $\frac{1}{4}$ - share them between 4 of your teddies
 $\frac{1}{3}$ - share them between 3 of your teddies.

Time to o'clock and half past

Watch this BBC Numbertime video about telling the time.

<https://www.youtube.com/watch?v=NS-2dUpkoHA>

Look around the house for all the clocks you can find. Are they analogue or digital?

Play this time game:

https://www.sheppardsoftware.com/mathgames/earlymath/on_time_game1.htm

2D shapes and 3D shapes

How many 2D and 3D shapes can you name? Go round your house/garden and make a list of all the circles, squares, rectangles and triangle shapes you can see. Can you find any other 2D shapes?

Then go around looking for 3D shapes (cubes, cuboids, cylinders and spheres). Can you find any others?

Ask your grown up to cut out some 2D shapes. Can you make different pictures with them? Try drawing out a picture using just 2D shapes.

Money

Ask to have a look in your mum's purse. Can you identify all the coins?

Can you make 10p? Can you find a different way to make 10p, using different coins? Try this for different amounts of money.

Fractions of shapes

Find things you can cut into halves and quarters, e.g a pizza, a cake, an apple.

Ask a grown up to draw some circles on a page. Can you split them into halves and quarters?

Count in multiples of 2, 5 and 10

Use raisins, grapes, cereal pieces etc... to help you practise counting in multiples of 2, 5 and 10.

- group into 2s to practise counting in 2s,
- group into 5s to practise counting in 5s
- group into 10s to practise counting in 10s.

Once you've done it with the objects, draw out circles or dots or anything you want to help you practise counting in 2s, 5s and 10s.

Mass/weight

Ask if you can help out in the kitchen. Can you help to weigh out ingredients? Look at the scale and read the numbers.

Find food in your kitchen, such as a tin of beans. Can you find something which is heavier and something which is lighter?

Length

Find something in your house you could use to measure with. They all need to be the same size e.g. counters, Lego bricks, paper clips etc.... Choose different objects, such as a pen or book. Estimate how many counters etc... long it will be and then use them to measure what it actually is. Can you find different things round your house which are longer/shorter?

Maths Homework Grid (P2)

Learn 5 addition facts, play a maths game and choose one other thing to work on each day.

Addition facts

Choose 5 addition facts from the grid on the next page to practise each day.

Start by practising the green and blue facts first.

Spend 5 minutes each day practising your number bonds to 20.

<https://www.topmarks.co.uk/maths-games/hit-the-button>

Time

Learn to say and write the days of the week.

Learn to say the months of the year.

Make sure that you know your birthday and can write it.

2 times table

Write out the 2 times table starting with $2 \times 0 = 0$, $2 \times 1 = 2$ etc.

Learn to say it without looking! Keep practising until you can say the 2 times table really quickly!

This game can help you to learn your 2 times table.

<https://www.topmarks.co.uk/maths-games/hit-the-button>

Fractions of amounts

Maths Games

Choose a maths game to play each day - Snakes and Ladders is a great game to help you learn your numbers! If you don't have this at home you can make your own version. There are a number of websites where you can print off a snakes and ladders board, including the Twinkl website which is free for parents to use at the moment.

Have a go at inventing your own maths game. Make sure you share it on Seesaw for us all to see!

Number to 100

Print off a 100 square number grid from the Twinkl website which is free for parents just now. Taking a 1p coin, hide one of the numbers and ask your child which number is missing. Ask your child to find the number after or before eg what is the number after 53? When they are confident with this, ask them to find the number two more than and two less than, and 10 more than and 10 less than.

The following website will help you learn your numbers to 100.

<https://www.topmarks.co.uk/ordering-and-sequencing/caterpillar-ordering>

Subtraction

Make this game then write the sum!

e.g. start with ten cups and knock three down. How many have I left?

$$10 - 3 = 7$$

Try using different numbers of cups and as your child gets more confident add to the number of cups.

The following website lets you practise subtraction.

<https://www.topmarks.co.uk/maths-games/subtraction-grids>

Fractions of shapes

Use some raisins, grapes, cereal pieces etc. to help you find $\frac{1}{2}$, $\frac{1}{4}$ and $\frac{1}{3}$ of a set of objects or you could use your teddies to help you.

If you are finding $\frac{1}{2}$ - share them between 2 of your teddies,
 $\frac{1}{4}$ - share them between 4 of your teddies
 $\frac{1}{3}$ - share them between 3 of your teddies.

Find things you can cut into halves and quarters and thirds, e.g a pizza, a cake, an apple.

Ask a grown up to draw some circles on a page. Can you split them into halves and quarters and thirds?

Write $\frac{1}{2}$, $\frac{1}{4}$, and $\frac{1}{3}$ on the circles.

Time to o'clock, half past, quarter past and quarter to.

We have just started learning quarter to and quarter past.

Use these websites to revise o'clock and half past, and to become confident in quarter past and quarter to.

https://mathsframe.co.uk/en/resources/resource/116/telling_the_time

<https://www.ictgames.com/mobilePage/hickoryDickory/>

Count in multiples of 2, 5 and 10

Use raisins, grapes, cereal pieces etc... to help you practise counting in multiples of 2, 5 and 10.

- group into 2s to practise counting in 2s,
- group into 5s to practise counting in 5s
- group into 10s to practise counting in 10s.

Once you've done it with the objects, draw out circles or dots or anything you want to help you practise counting in 2s, 5s and 10s.

2D shapes and 3D shapes

How many 2D and 3D shapes can you name? Go around your house/garden and make a list of all the circles, squares, rectangles and triangle shapes you can see. Can you find any other 2D shapes?

Then go around looking for 3D shapes (cubes, cuboids, cylinders and spheres). Can you find any others?

Ask your grown up to cut out some 2D shapes. Can you make different pictures with them? Try drawing out a picture using just 2D shapes.

Mass/weight

Ask if you can help out in the kitchen. Can you help to weigh out ingredients? Look at the scale and read the numbers.

Find different things around the house which weigh around 1 kg.

Money

Ask to have a look in your mum's purse. Can you identify all the coins?

Ask an adult to help you add up coins to make different amounts. Make amounts up to £1.

Look at prices online and see if you can read how much each item costs.

Length

Ask an adult for a ruler. How many centimetres does your ruler measure?

Ask if an adult has a tape measure to show you and ask them to point out how long a metre is. How many centimetres in a metre?

Find objects to measure around your house in centimetres and ask an adult to help you measure larger objects in metres.

Creative Time

Here are some great challenges that you could try during your creative time.

<h1 style="margin: 0;">30 Day LEGO Challenge</h1>						
<p>Follow the instructions for each day. The only rule is to have fun and use your imagination!</p>			<p>Day 1 You were hired by an amusement park to create a new roller coaster.</p>	<p>Day 2 NASA needs you to build a new rocket.</p>	<p>Day 3 Your parents want to build a new home and they want you to build it.</p>	<p>Day 4 Hollywood hires you to build a movie set for a new Star Wars movie.</p>
<p>Day 5 You enter a contest to build the world's tallest tower. Will you win?</p>	<p>Day 6 You are stuck on Mars and need to build a new ship to get home.</p>	<p>Day 7 Ford hires you to create the toughest pick up truck in the world.</p>	<p>Day 8 You and 4 friends are stranded on an island. Build a boat to find a way home.</p>	<p>Day 9 Captain Hook needs a new pirate ship and wants you to build it.</p>	<p>Day 10 You and your friends decide to build a tree house.</p>	<p>Day 11 Prince Charming hires you to build a castle for him & Cinderella.</p>
<p>Day 12 Dr. Who hires you to build a new TARDIS.</p>	<p>Day 13 You are asked by the President to build a new monument to George Washington.</p>	<p>Day 14 Mr. Hilton hires you to build a new hotel.</p>	<p>Day 15 There is a circus in town. Build a place for the performance.</p>	<p>Day 16 Help your fellow pioneers build a wagon to make it across the country.</p>	<p>Day 17 Build the fastest car around and join the big car race.</p>	<p>Day 18 Do you wanna build a snowman? Get in the winter mood and build a snow scene.</p>
<p>Day 19 The city wants you to build a bridge to connect one side of the town to the other.</p>	<p>Day 20 Pizza party! It is up to you to make a pizza for all the guests.</p>	<p>Day 21 You are hired to build a brand new hospital.</p>	<p>Day 22 The fence is broke and the dog keeps escaping. Build one he can't get out of.</p>	<p>Day 23 You are now in medieval times. You are commissioned to build a jousting arena.</p>	<p>Day 24 The local bank keeps getting robbed. Build a safe no one can crack.</p>	<p>Day 25 Design and build your dream bedroom.</p>
<p>Day 26 You are elected ruler. Build a flag for your land.</p>	<p>Day 27 Aliens are invading and you need to build a war robot to defeat them.</p>	<p>Day 28 The aliens have taken over. They are impressed by your robot. They want you build one for them.</p>	<p>Day 29 You are hired to build a house entirely out of yellow Legos.</p>	<p>Day 30 There is blizzard. You will need to build a snowmobile</p>	<div style="display: flex; justify-content: center; align-items: center; gap: 20px;">  <p>What was your favorite day?</p> </div>	

30 Day Creativity Challenge

Directions: Use toys, paper, recyclables, nature, furniture and blankets, anything you feel like using to complete each challenge. Enjoy being creative and finding new ways to express your ideas.

Day 1		Day 2		Day 3		Day 4	
Design your dream tree house.		Build a camouflaged submarine.		Make a tall structure.		Create a shopping trolley device.	
Day 5		Day 6		Day 7		Day 8	
Design an electric car.		Build an 8 bedroom mansion.		Make a high speed boat.		Write a song about your favourite things.	
Day 9		Day 10		Day 11		Day 12	
Create a jungle gym for all ages.		Design a flying ambulance.		Make a bridge to visit your neighbour's house.		Create a new type of farming equipment.	
Day 13		Day 14		Day 15		Day 16	
Design a piece of clothing.		Build a rocket to visit Saturn.		Make a stage for a fire twirling show.		Design a garbage pickup vehicle.	
Day 17		Day 18		Day 19		Day 20	
Build a castle with a moat.		Create a piece of equipment for an astronaut.		Make up a new word with meaning.		Create a home for an insect.	
Day 21		Day 22		Day 23		Day 24	
Design a couch + bed + desk.		Build a carport.		Make a café for kids.		Write a poem about your life.	
Day 25		Day 26		Day 27		Day 28	
Create an alien spaceship.		Design a factory that makes cakes.		Make up an undiscovered prehistoric creature.		Design an amusement park.	
Day 29		Day 30				What was your favourite challenge?	
Create a new fruit or vegetable.		Build an entertainment room.
